

Appendix 1

Revenue Policy and Fees for Services 2016/2017

Chapter 15 of the Local Government Act 1993 (LGA) prescribes that Councils' may raise revenue in a number of different ways. These include rates, charges, fees, grants, borrowings and investments. Council is required to set its rates, charges and fees annually and publish these in the Operational Plan for the following financial year, which undergoes a 28 day public consultation period before it is adopted by Council.

Ordinary Rates

Section 493 of the LGA prescribes that Council may have four categories of ordinary rate and four categories of rateable land being farmland, residential, mining and business. Council has all four of these categories. These categories can be further sub categorised in accordance with Sections 515 to 518 of the LGA.

Ordinary rates are applied to properties based on the independent land valuations provided by the NSW Department of Lands, which is the Valuer General's Department. Council is required to use the latest valuations received up until 30 June of the previous year for rating purposes in the current financial year. A shire wide general revaluation is undertaken every four years.

In accordance with Section 497 of the LGA the structure of a rate may consist of:

- (a) an ad valorem amount (which may be subject to a minimum amount of the rate), or
- (b) a base amount to which an ad valorem amount is added.

The ad valorem is a cent in the dollar value that is multiplied by the land value to derive the ad valorem amount.

If the use of the land no longer reflects the rating category that has been applied, Section 524 of the LGA states that a ratepayer must notify the Council within 30 days after the land changes from one category to another or make application to Council to have the category changed as per Section 525 of the LGA.

In 2014/2015 Council resolved to discontinue sub categorisation of the farmland category on the basis of irrigability as defined under Section 529 of the LGA, and have a single Farmland Category.

Special Rates

Section 495 of the LGA covers the making and levying of special rates. Special rates are to be raised and used for the specific purpose they were levied for. Council has one special rate for 2016/2017 being for Tourism, which is levied on business.

Water Charges

Section 501 of the LGA covers the making and levying of Water Access Charges on all properties connected to, or able to be connected to, Council's water service network. Section 552(1)(b) of the LGA prescribes that Council can charge for a connected water service provided the land is within 225 metres of a water pipe of Council.

Council has adopted a water charging structure based on the following benefit index:

Service Size (mm)	20/25	32	40	50	65	80	90	100
Benefit Index	1.00	1.64	2.56	4.01	6.76	10.24	12.96	16

The benefit index is used to calculate the base charge for each service. In addition to this base charge usage charges will apply. For metered services this usage charge will be a charge per kilolitre of water used and for non-metered services this will consist of an additional charge combined with the base charge.

An unconnected service is charged the same base charge as the 20/25 metered service. A landowner must apply and pay the appropriate fee for a disconnection to qualify for this service if the land is within 225 metres of a Council water pipe. The landowner would then be liable for a reconnection fee should a connected service again be required in the future.

Sewerage Charges

Section 501 of the LGA covers the making and levying of Sewer Access Charges on all properties connected to, or able to be connected to, Council's sewer service network. Section 552(3) (a) of the LGA prescribes that Council can charge for a connected sewer service provided the land is within 75 metres of a sewer of Council.

An unconnected service is charged half the base charge of the connected service. A landowner must apply and pay the appropriate fee for a disconnection to qualify for this service if the land is within 75 metres of a Council sewer. The landowner would then be liable for a reconnection fee should a connected service again be required in the future.

Pedestal charges are levied on flats and commercial premises that add above normal loads to the sewer. Council has two charges being water closets and cisterns. These are set at 15% of the connected service charge.

Waste Management Charges

Section 496 of the LGA prescribes that Council must make and levy an annual charge for the provision of domestic waste management services. Section 501 of the LGA prescribes that Council can make an annual charge for waste management services other than domestic waste management.

Council has four types of waste charges being Commercial, Urban, Rural and Vacant Land. In 2007/2008 Council implemented a recycling collection program for the townships of Narrabri, Boggabri, Wee Waa and Baan Baa. This was expanded to include Greenwaste in 2013/2014.

In 2014/2015 Council implemented for waste charges to be split into an Urban Waste Management Fee for ALL urban assessments, and a separate service charge for assessments receiving waste collection. Farmland still has a vacant land garbage charge if vacant, with all occupied farmland being charged a waste management fee the same as urban properties.

Interest

Section 566 of the LGA prescribes that interest accrues on rates and charges that remain unpaid after they become due and payable. The rate of interest is set by Council but must not exceed the rate specified for the current financial year by the Minister for Local Government.

In accordance with section 566(3) of the LGA, the Minister determines annually the maximum rate of interest payable on overdue rates and charges. For the 2015/2016 rating year this was 8.5%. Council proposes to apply the maximum permissible for the 2016/2017 rating year, once determined.

Rounding

All rates and annual charges are rounded to the nearest dollar.

Fees for Services

Council must adhere to various legislative requirements in the setting of fees for services. In some cases the fee or charge is prescribed by legislation and in others Council has the discretion to set the fee or charge.

Council supports the user pays principle in the assessing and levying of fees for services, whilst recognising the need for supplementing income in particular circumstances.

Council reserves the right to charge for any additional services or facilities and to cater for legislative changes which are not identified in the fees for services schedule.

Pricing Policy

Council is committed to providing a diverse range of services, which meet the needs of people who reside or visit the Council area, within available resources. The principles of competitive neutrality, which is part of National Competition Policy, have been taken into consideration in the pricing policy.

Council recognises the need to provide services for groups and members of the community that may not be able to afford a commercial rate for services. Council will ensure that all rates, charges and fees are set so as to provide adequate cash flows to meet operating costs and to assist in the provision of funding capital works. Council will pursue all cost effective opportunities in order to maximise its revenue base and to seek an acceptable commercial rate of return on investments, subject to community service obligations.

Council recognises the need to set prices for goods and services in order to provide the most effective level of service to the community and to ensure resources are not wasted.

Goods and Services Tax (GST)

GST is not applicable to rates or annual charges levied on a rates notice. Therefore, annual water, sewerage and waste management charges included on a rates notice do not attract GST. GST is not applicable to water therefore no water usage accounts issued include GST.

In general, where legislation states that Local Government is the only possible supplier of a service, the fee for that service will not attract GST. Most other fees and charges do attract GST. All fees and charges are quoted including GST and if GST is applicable this is indicated in the fees and charges schedule.

Public Access Documents

In addition, schedule 5 of the Government Information (Public Access) Act 2009 (GIPA) requires that certain documents held by council, are to be made publicly available for inspection, free of charge. The public is entitled to inspect these documents either on Council's website (unless there is an unreasonable additional cost to Council to publish these documents on the website) or at the offices of the Council during ordinary office hours or at any other place as determined by the Council. Any current and previous documents of this type may be inspected by the public free of charge. Copies can be supplied for a copying charge as prescribed in Council's Fees for Services schedule.
