B Monitoring and Complaints Summary

B1 Number of Pollution Complaints

Number of complaints recorded by the licensee during the reporting period.

If no complaints were received enter nil in the attached box, otherwise complete the table below.

Pollution Complaint Category	Number of Complaints
Air	
Water	
Noise	
Waste	
Other	

B2 Concentration Monitoring Summary

For each monitoring point identified in your licence complete all the details for each pollutant listed in the tables provided below.

If concentration monitoring is **not** required by your licence, **no tables** will appear below.

Note that this does not exclude the need to conduct appropriate concentration monitoring of assessable pollutants as required by load-based licensing (if applicable).

Monitoring Point 1 (NBH1)

Groundwater quality monitoring, Groundwater monitoring point known as 'Bore Hole 1' as shown on map titled 'Narrabri Landfill' in report 'Narrabri Landfill Environmental Monitoring' dated 1 October 2006 and on EPA file 251463A1/02.

Section B2 has been completed by CodyHart Environmental on Council behalf. There has been full compliance with the Environment Protection Licence 12193 monitoring requirements. The December 2023 sampling round was delayed until early January 2024 due to boggy track conditions for 4WD access. Hence the reporting period has been revised and is now 21-Dec-2022 to 15-Jan-2024.

B3 Volume or Mass Monitoring Summary

For each monitoring point identified in your licence complete the details of the volume or mass monitoring indicated in the tables provided below.

If volume or mass monitoring is not required by your licence, **no tables** will appear below.

Note that this does not exclude the need to conduct appropriate concentration monitoring of assessable pollutants as required by load-based licensing (if applicable).
