CAPITAL WORKS MAP

WHAT'S HAPPENING IN YOUR NEIGHBOURHOOD?

Narrabri Shire Council has developed an interactive map showing Council's planned Capital Works projects over the current financial year.

Every year, Council invests a considerable amount in improving infrastructure throughout Narrabri Shire. These works are planned in advance through Council's four-year Delivery Program.

This year, in particular, there are a number of notable projects across the Shire. Council has developed this interactive map to help local residents see what capitals works are planned in their neighbourhood.

The map does not feature details of the normal maintenance programs undertaken by Council on an annual basis but the major improvements and investments being made in infrastructure for the future.

This project has been part of a continued effort by Council to keep the community informed and engaged with what is happening across Narrabri Shire.

The map has been updated to reflect works for the current financial year and can be found on the Narrabri Shire Council website at the following address www.narrabri.nsw.gov.au/interactive-capital-works-map-1228 or by clicking on the link on the homepage www.narrabri.nsw.gov.au

HOW TO USE THE CAPITAL WORKS INTERACTIVE MAP

Simply click and drag the map around to view the town or village of interest and then zoom in to see the projects.

You can zoom in and out by using the + and - icons in the bottom left-hand corner of the map.

Project sites are highlighted with a coloured icon - the different colours pertaining to the type of works (roads, water etc).

To view details of the project, click on the icon and you will see details of the project including a description of the works and proposed budget.

To view the page in full screen, in another webpage, click the enlarge button.

Click on the menu button to view the full list of service areas.

You can then click on an arrow to view a drop down list of projects for each service area.

By clicking on each project the map will take you to the location and give you the details for the project including the Council section in charge of the works and what the budget is for the project.
