Water Connection Diagram

Draw a diagram of the block showing the nearest street(s) and adjacent blocks. On the diagram clearly mark the desired location of water service connection and show the distance from the nearest side boundary.

NB: A clearly labelled peg should also be placed on site indicating the desired location of the service.

Conditions

This application is considered a binding agreement and must be signed personally by the property owner/s and the licensed plumber. Applicants are reminded that sufficient information must be supplied on the connection diagram to identify the allotment to which the application refers. This should include nearest cross street and any other necessary identification. Adequate survey pegs defining the front boundary must be available on site to enable installation of the service in the correct position. If sufficient information is not supplied, it may be necessary for the application to be returned and it is very likely that delays in installation will result. The applicant is responsible to ensure that the area at which the service is to be installed is clear of materials or rubbish.

This information is requested in accordance with Council Resolution No 164/2017 adopted by Council on 15 August 2017 in conjunction with the Water Service Connection Policy.

The information provided by you on this form will be used by Narrabri Shire Council or its agents to process this application. The provision of this information is voluntary, however, if you do not provide the information, Council may not be able to fully process your application. Once collected by Council, the information can be accessed by you in accordance with Council's Privacy Management Plan or in special circumstances, where Commonwealth legislation requires or where you give permission for third party access.

If the size of the service is larger than 25mm, please supply information on the use of premises and backflow prevention device being installed. The water will only be turned on when backflow fitted.

The undersigned confirm they have read and accepted the Water Service Connection Policy and conditions that are in accordance with the Local Government Act 1993.
